

Reader's Guide

To give the reader a quick sense of the topics contained in this work, we have arranged most of the entries in the following topical guide. Broad topical entries such as Kansas and Oklahoma (the study of the women of a state), Women of the Southwest (a regional perspective on women), and Cripple Creek (the women of a city) are included in this encyclopedia to give you an idea of how to structure a work on women in a place. Because of the scope considered by the authors transcending topics, you should consult them for their contents and concepts. The nine topical categories are Agriculture/Ranching, Arts and Letters, Education, Entrepreneurs, Law, Pioneers, Public Performance, Religion, and Women's Organizations. We hope you find this useful, but remind you to use the Index as a finding means.
